

OPEN LLM DAY 1.0

GUIDE FOR CREATING COHERE ACCOUNT AND API KEY FOR WORKSHOP

STEP-1 - Go to <https://cohere.com/>

STEP-2 - Hover on the PRODUCTS tab and click Rerank

STEP-3 - Click 'on get you api key button'

The screenshot shows the Cohere website's landing page. At the top, there is a navigation bar with links for PRODUCTS, FOR BUSINESS, DEVELOPERS, RESEARCH, and COMPANY, along with a TRY NOW button. The main heading reads 'Improve search performance with a single line of code'. Below this, a code block displays a Python snippet for using the Cohere rerank API. To the right, a search results interface is shown with a query 'Where is NYC located?' and four results: New York City, New York City Subway, New York City Police Department, and NYC Media. At the bottom left, there are two buttons: 'CONTACT SALES' and 'GET YOUR API KEY', with the latter being circled in red.

```
1 import cohere
2 co = cohere.Client('{api_key}');
3
4 query = "Where is NYC located?"
5 docs = ["NYC Media [...]", "The New York City
6 Police Department [...]", "New York City [...]",
7 "The New York City Subway[...]"
8
9 results =
10 co.rerank(model='rerank-english-v3.0',
11 query=query, documents=docs, top_n=4)
```

Rerank provides a powerful semantic boost to the search quality of any keyword or vector search system without requiring any overhaul or replacement.

GET YOUR API KEY

STEP-4 - Click on the API Keys tab

The screenshot shows the Cohere dashboard interface. The top navigation bar includes links for CHAT, DASHBOARD, PLAYGROUND, DOCS, and COMMUNITY. On the left sidebar, under the 'PLATFORM' section, the 'API Keys' tab is circled in red. The main content area features a welcome message 'Welcome, Adithya!' and a 'What is Cohere?' section. Below this, there is a 'Try Command R+' section with a 'NEW' badge and a 'Try Command R+' button. To the right of this section is a 'LANGUAGE MODEL' dropdown menu showing 'Command R+' and a 'PROMPT OVERRIDE' section with a text input field. At the bottom of the dashboard, the word 'Coral' is visible.
